

FEATURED ALUM-A-LIFT PHARMACEUTICAL RACK AND BASKET HANDLING ARM

PROJECT 27092

MODEL A800CRSLR-72

FEATURING Dual Removable Hooks, Swiveling Spreader Bar, Two-Segment Articulated Arm, Adjustable Control Handle, Class D Clean Room Compatibility

HANDLING 50 lb [23 kg] Racks and 75 lb [34 kg] Baskets

DETAILS Pharmaceutical processes often involve the retrieval of racks or baskets of biological material stored in top-loading cryogenic coolers. This Alum-a-Lift features a two-segment articulating arm with a custom hook assembly and adjustable control wand. This ergonomic material handling tool enables an operator to remain stationary in an aisle and quickly perform what would otherwise be an awkward handling maneuver.
