

FEATURED ALUM-A-LIFT HORIZONTAL ROLL LIFT FOR CARBON FIBER PREPREG

PROJECT 27212

MODEL A2500CSLRPD-60

FEATURING Swiveling V-Trough w/ 90 Degree Swivel Locks, Deflection Compensation, Powered Lateral Shuttle, Steerable Powered Drive Wheel, and Low-Profile Legs

HANDLING 1300 lb [590 kg] Rolls

DETAILS This Alum-a-Lift is used in a converting and formatting process of pressure sensitive carbon fiber prepreg for the aerospace industry. As more composites are used in modern aircraft, the rolls being processed are growing in size. Custom pallets were supplied to allow for high-density freezer storage.
