

FEATURED ALUM-A-LIFT
 BLOW-FILL-SEAL FILL HEAD LIFTER WITH ROTATION

PROJECT
31089

MODEL A1500CS-66

FEATURING T-Slot Gripper Interface, Detachable Draw Bar, 360° Fixture Rotation

HANDLING 650 lb [295 kg] Fill Head Assemblies

DETAILS Blow/Fill/Seal packaging equipment often utilize large, heavy assemblies that must be removed for replacement or maintenance. This Alum-a-Lift features a rotating boom with a specialized T-slot gripper to handle the heaviest of fill head assemblies. The manually operated rotation enables quick and fine adjust to its positioning. This ergonomic assembly handling tool enables an operator to remove and perform maintenance on an assembly that would otherwise be difficult to perform work on.
