

FEATURED ALUM-A-LIFT
 CLEANROOM LIFT WITH CUSTOMER-SPECIFIED INTERFACE

PROJECT
31709

MODEL A800CRSLR-72

FEATURING Jacking Screws, Fine Vertical Shuttle, Spring Overload / Obstacle Encounter, Indexable Carriage Mounting, Low Profile Legs with Guide Rollers

HANDLING 275lb [125 kg] Components

DETAILS Alum-a-Lift has an extensive library of proven custom end-effectors but can also offer systems that are compatible with legacy or customer-supplied tooling. Configured for a Semiconductor cleanroom, this Alum-a-Lift features an interface plate with an agreed-upon hole pattern. Also included is a load-sensing module, jacking screws for leveling and a fine vertical shuttle for precise positioning. The lift's low-profile legs and casters also feature guiding wheels to repeatably locate the lift at the equipment it will service.

SUITABLE FOR USE IN CLASS 1000 CLEAN ROOM
