

FEATURED ALUM-A-LIFT CLEANROOM LIFT WITH FORKS AND REMOVABLE HOIST RING

PROJECT 31618

MODEL A800CRSLR-72

FEATURING Dual Extended and Removeable Forks, Removeable Lifting Crossbar, Adjustable Control Handle

HANDLING 275 kg [606 lb] Assemblies

DETAILS This multifunction lift is configured to perform several tasks in an ISO 6 (Class 1000) cleanroom. The lift's low-profile legs with embedded front wheels fit underneath process equipment and ensure stability against tip-over. The lifting forks are lightweight and easily removable, enabling the lift to easily be adapted for new uses in the future. A removable crossbar with load-rated hoist ring is also included, allowing the lift to be used with straps, slings, tethers, and custom below-the-hook fixtures.

FOR USE IN CLASS 1000 (ISO 6) CLEANROOM
