

# FEATURED ALUM-A-LIFT FLOOR MOUNTED ARTICULATED ARM HOIST

## PROJECT 29130

**MODEL** S1000CRCS-102

**FEATURING** Articulated Arm, Small Footprint, ISO 5 (Class 100) Cleanroom, SEMI & CE rated, AC Powered

**HANDLING** 350 lb [159 kg] Semiconductor Components

**DETAILS** This floor mounted hoist is well suited for use in a semiconductor pass through for component handling. The small footprint design saves valuable floor space while the flexible articulated arm allows for smooth and precise movement. Various quick exchange tooling can be attached to the end of the arm for specialized handling. The all electric design is inherently clean and efficient and can easily be adapted for different environments.
