

FEATURED ALUM-A-LIFT  
 LIGHTWEIGHT ROLL HANDLING LIFT FOR FOOD PACKAGING

PROJECT  
**32088**

**MODEL** B350CS-78

**FEATURING** Powered Clamp with Clamp Force Limiting, Manual Wrist with 90° Locking Points,

**HANDLING** 100 lb [45 kg] Rolls

**DETAILS** This lift is designed to assist in the food packaging industry. Rolls of paper and plastic arrive palletized and must be lifted and rotated for installation. Alum-a-Lift clamp equipment grip rolls from the outside for easy loading access. Safety features include: “safe-to-lift” indicator light, indicating the correct gripping strength; detents, to protect the load from spinning freely; and manual locking points, to allow off-center loading.
