

FEATURED ALUM-A-LIFT
 ERGONOMIC LIFTING DEVICE WITH BOOM AND HOIST RING

PROJECT
32062

MODEL A800CS-72

FEATURING Folding Boom, Swiveling Hoist Ring, Quick-Exchange Batteries, Large Diameter Casters

HANDLING 500 lb [227 kg] Modules

DETAILS This versatile ergonomic lifting device was built to support the assembly of large trucks. This lift overcomes many of the disadvantages associated with overhead hoists. It can be used by a single operator with no specialized training, can be easily moved between departments, and is able to pass underneath overhead obstacles. Oversized casters help reduce rolling efforts and the lift's quick-exchange batteries with offline charging allow for continues use of the lift over multiple shifts.
