

FEATURED ALUM-A-LIFT STAINLESS STEEL LIFT FOR PHARMACEUTICAL FEEDER BOWLS

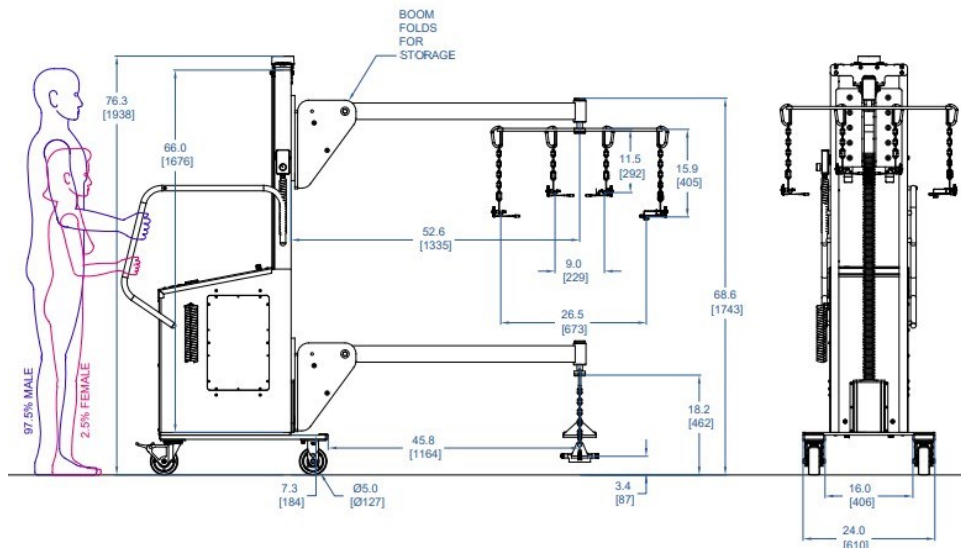

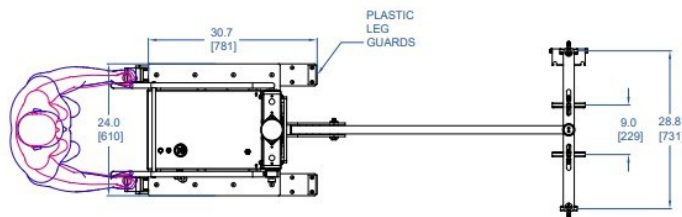

PROJECT 32224

MODEL C800SS-66

FEATURING Stainless Steel Construction, IP65 Water Resistance, Lightweight Folding Boom, Removable Hooks.

HANDLING 55 lb [25 kg] Vibratory Feeder Bowls and Tracks

DETAILS Pharmaceutical processes often have components that need to be placed into sanitation chambers. The cleaning procedures in these environments require lifts that are constructed of stainless steel and water resistant to allow for proper cleaning of the lift without damage to components. Counterbalance is required to place the various assembly components into the chamber without access for legs underneath. The hooks have discreet positioning to allow for handling of different sized components.
