

FEATURED ALUM-A-LIFT  
 COMPACT AND LIGHTWEIGHT ROLL HANDLING LIFT

PROJECT  
**32388**

**MODEL** B350CS-60

**FEATURING** Compact Footprint, Lightweight Construction, Fixed V-Trough, Adjustable Lifting Speed

**HANDLING** 275 lb [125 kg] Rolls

**DETAILS** The packaging process often requires transporting and loading rolls onto various machines. This ergonomic Alum-a-Lift system was designed to fit in a small footprint and be manipulated easily while handling rolls too heavy to carry by hand. With a single operator the rolls is picked and placed without concern for accident or injury.
