

FEATURED ALUM-A-LIFT
 CLEANROOM LIFT WITH EXTENDING GRIPPER AND FIXTURES

PROJECT
31284

MODEL A800CRSLR-72

FEATURING Interchangeable Component Specific Fixtures, Telescoping Boom With Lock, Wide Cleanroom Rated Casters, Floor Brakes, Class 100 (ISO 5) Cleanroom Rating

HANDLING 135 lb [61 kg] Semiconductor Tooling

DETAILS This cleanroom rated system was designed for a global semiconductor manufacturer providing solutions that target the automotive, industrial and communication infrastructure markets. A multi-purpose, long reach boom was needed to support the maintenance of process tools. Different end-effectors could easily be attached, allowing one lift to easily support different PM or failure based tasks. To minimize the footprint, the boom could be retracted as needed to facilitate movement in narrow aisles.
