

FEATURED ALUM-A-LIFT
 LIGHTWEIGHT AEROSPACE LIFT WITH TOOLING PLATFORM

PROJECT
33602

MODEL A800CRCS-72

FEATURING Aluminum Platform, Stainless Steel Platform Liner with Custom Hole Pattern, Cleanroom Handles, Encapsulated Drive Train, Class 1000 (ISO 6) Cleanroom Conformity

HANDLING 600 lb. [272 kg] tooling

DETAILS This Alum-a-Lift features an aluminum platform with a stainless steel platform liner. The stainless steel platform liner is ideal for situations in which heavy loads will be sliding across the platform. The customer defined hole pattern on the platform allows this lift to handle various tools around the facility. The protective bellows and sealed motor enclosure help to keep the cleanroom environment uncontaminated.

SUITABLE FOR CLASS 1000 (ISO 6) CLEANROOM
