

FEATURED ALUM-A-LIFT
AEROSPACE LIFT WITH FRONT TO BACK SHUTTLING BOOM

PROJECT
33661

MODEL A800CSLR-84

FEATURING Dual Removable Hooks, Swiveling Spreader Bar

HANDLING 300 lb. [136 kg] Optics

DETAILS This Alum-a-Lift meets the stringent height restrictions and functional needs of a leading aerospace manufacturer. It features a shuttling boom that provides precise depth control for optics placement in the front to back direction. With an interchangeable custom hook assembly, this ergonomic handling tool enables operators to easily maneuver a cumbersome load throughout the factory.
