

FEATURED ALUM-A-LIFT
AEROSPACE CLEANROOM HOIST BOOM LIFT

PROJECT
33665

MODEL A800CRCS-72

FEATURING Stowable Boom with Load-Rated Hoist Ring, Cleanroom Class 1000 (ISO 6) Compatibility, ESD Drag Chain

HANDLING 330lb [150 kg] Aerospace Research Components

DETAILS We designed this versatile Aerospace lift to cater to a client specializing in space instrument development and hardware testing for both space and ground-based projects. This Alum-a-Lift includes a boom with a hoist ring capable of lifting components within their ISO 6 cleanroom setting. This streamlined and efficient end effector enables seamless adaptation with their current capabilities and future space challenges without any modifications, and it conveniently folds down for storage in their confined workspace.
