

# FEATURED ALUM-A-LIFT SATELLITE ASSEMBLY WORK POSITIONER LIFT

## PROJECT 33711

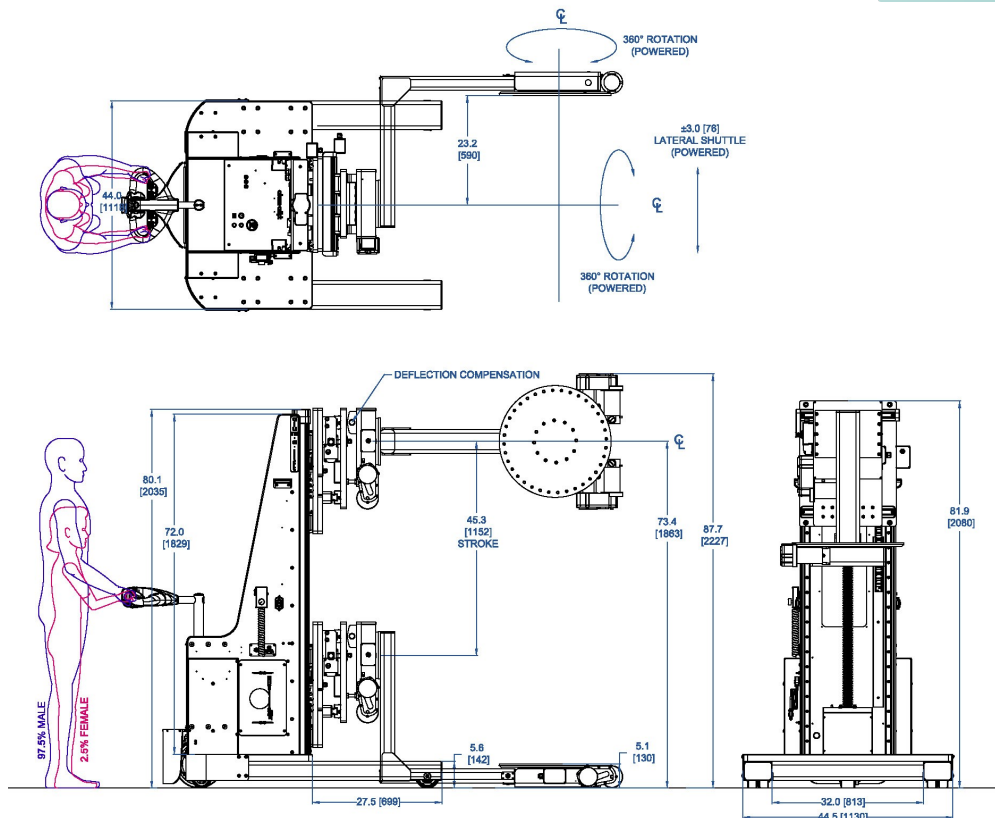

**MODEL** A3500CSLRPD-72

**FEATURING** Two Rotation Modules, Deflection Compensation Adjustment, Lateral Shuttle, Speed Control, Cleanroom Class 100,000 Compatible

**HANDLING** 1,000 lb [453 kg] Aerospace Modules

**DETAILS** Designed for a satellite manufacturer, this lift can transport and facilitate access to expensive and heavy satellites for assembly. This Alum-a-Lift is a versatile tool that seamlessly manipulates modules into multiple orientations and features two speed adjustable rotation axes and a lateral shuttle. By consolidating various challenging tasks into one efficient piece of equipment, it not only streamlines operations but also proves to be a cost-effective and time saving solution.
