

FEATURED ALUM-A-LIFT
 SANITARY WASH DOWN POWERED DRIVE ROTATING DRUM LIFT

PROJECT
33750

MODEL A1500CSPDWD-78

FEATURING Powered Clamp, Powered Rotation, Powered Drive Movement

HANDLING 606 lb [275 kg] Drums

DETAILS This lift was designed for a food manufacturer seeking a sanitary and corrosion-resistant solution to handle sizable drums of highly acidic food products. Not only does this Alum-a-Lift offer stainless steel rotating clamp arms and pads that inhibit corrosion, this system allows the operator to use a single device for transport and dumping. Additionally, the IP65 rating allows the lift to be hosed down enhancing overall cleanliness.
