

FEATURED ALUM-A-LIFT  
 COMPACT ROLL TURNER LIFT WITH EXPANDING MANDREL

PROJECT  
**34137**

**MODEL** B350CSWD-72

**FEATURING** Expanding Mandrel Roll Gripper, 180 Degree Mandrel Rotation, IP65 Wash-down

**HANDLING** 150 lb [68 kg] Rolls

**DETAILS** In the food manufacturing industry, all material handling solutions must be able to withstand routine cleanings. This Alum-a-Lift is not only IP65 washdown rated and durable, the footprint was designed to maneuver in a very narrow aisleway. This lift introduces a compact manual rotation module that fits into the tightest dimensional constraints. The embedded roller helps to load and unload rolls easily.
