

FEATURED ALUM-A-LIFT
 CLEANROOM LIFT WITH ROLLER BOOM AND HOIST RING

PROJECT
34488

MODEL A800CRCS-94

FEATURING Cleanroom Class 10,000 (ISO 7), Roller Boom, Detachable Hoist Ring

HANDLING 500 lb [226 kg] Rolls and Dies

DETAILS This lift was designed for a global leader in medical packing to resolve an ergonomic issue within their processes that required operators to manually adjust equipment to reach higher rolls and die loading. Alum-a-Lift provided a solution with increased lift height and a roller boom with detachable hoist ring capable of lifting 500 lb components within their Class 10,000 (ISO 7) cleanroom setting. This ergonomic handling tool eliminates all manual lifting and enables the operators to load components safely and quickly.
