

FEATURED ALUM-A-LIFT  
 MEDICAL ROLL HANDLING LIFT FOR STERILE PACKAGING

PROJECT  
**35392**

**MODEL** A800CS-60

**FEATURING:** Powered Clamp with Clamp-Force Limiter, 360° Powered Rotation

**HANDLING:** 215 lb [97 kg] Foam Rolls

**DETAILS:** Alum-a-Lifts are commonly used in the sterile packaging and medical device industries to reduce manual effort and improve ergonomics. They safely clamp and transfer heavy rolls from pallets to unwind machines, with powered rotation for precise positioning and clamp force limiting to prevent roll damage.
