FEATURED ALUM-A-LIFT

ROLLER BOOM LIFT WITH DETACHABLE PLATFORM

PROJECT 36357

MODEL A800CS-80

FEATURING Roller Boom w/ Flip Stop Nose, Lifting Points, Detachable Platform, Detachable Hoist Rings

HANDLING 270 lb [122 kg] Dies

DETAILS This Alum-a-Lift is engineered to deliver exceptional versatility and performance in material handling applications. It is equipped with a specialized roller boom, meticulously designed to facilitate precise handling of rolls, ensuring both safety and ease of operation during loading, unloading, and transport processes.

The Roller Boom Lift is outfitted with detachable hoist rings that allow operators to safely and securely lift a wide variety of materials, parts, or components beyond just rolls. For further enhanced functionality, the lift features a detachable platform that can be easily removed or installed as needed—offering additional options for handling different types of loads. An integrated side storage compartment keeps the platform organized and easily accessible.

The Roller Boom represents a comprehensive material handling solution, combining specialized features with user-focused design elements to support productivity, safety, and operational flexibility in a wide range of industrial settings.
