

FEATURED ALUM-A-LIFT EXTENDED REACH EXPANDING MANDREL

PROJECT 36386

MODEL A800CS-72

FEATURING Expanding Mandrel, Extended Reach, Forward Rotation, Counterbalanced

HANDLING 200 lb [90 kg] Rolls

DETAILS This roll handling lift was engineered for a facility needing efficient access to rolls positioned at the far end of pallets and to streamline material flow in tight staging areas. Featuring extended reach and carts designed for convenient stacking, this Alum-a-Lift approaches from either side to suit any workflow. Rolls are transferred smoothly from pallet to cart, while ergonomic design and optimal lift height ensure stable, precise handling for packaging operations. Enhanced maneuverability and user-focused features maximize efficiency and safety in every lift.
